## 1.2 New features

- When a resources room type is full, SAM Admin Users can set a hierarchical order to fill room types. To enable this feature, you will need to have both the “*AutomaticallyPickRoom*” and “*roomType\_FillOrder*” parameters enabled.
- Workflow Final Approvers can now update SAM profile fields using the “*Update SAM Profile*” button during a demobilisation request.

For more information, **please contact your account manager.**

## 2 Improvements

---

Version release 6.3.24 includes the following improvements:

- The “include virtual room” check box is now displayed in the room search page, when making a booking in Workflow.
- An improvement has been made to the SAM Itinerary and Room Booking Report structure. [#26715]
- An improvement has been made to Workforce Report **SRF163 Arrival Departure 2** to include the departing residents shift status. [#25689]
- An improvement has been made to Workforce Report **SRF118 Workflow KPI** to include the category type for a generic request. [#26223]
- An improvement has been made so that the reason for travel is captured in the comments sections of workflow documents.

## 3 Fixes

---

Fixes have been applied to the following issues:

- Completing multiple profiles. [#26845]
