Contents

Document Control	2
1. New Features	4
2. Improvements	5
3. Fixes.....	6

1. New Features

INX SAM Group Bookings import - users now can create multiple Group Bookings via Excel through the newly created import functionality.

2. Improvements

Improvements have been made to the following:

- In SAM while finalising a Group Booking, the pop-up message has been refined to “All reserved transports and reserved rooms will be released. Are you sure you want to continue?”
- In SAM, the Group Bookings Details page, sections are now displayed in the order you need to complete them: Reserved Rooms, Reserved Transports and Confirmed Bookings.
- In SAM, when adding a Group Booking all required fields are now displayed with an asterisk (*).
- In Workflow, the report named “Training report” has been improved, to include the historical data of the training completion date, for existing users. [#28379]
- In SAM, when processing Roster (Multiple) bookings, there is now a tool tip to confirm when each person has a future room assign that will be considered when the roster booking is complete. [#33612]
- **SRF308 Accommodation Discrepancy** now has the additional criteria to enable group bookings and room locks, to be excluded from the report. [#29080]

3. Fixes

Fixes have been applied to the following:

- **SRF315 Cleaning Forecast VS Actuals**, on the raw data tab, where duplicate records were displayed. [#38457]
- The Group Booking function, where the NightAudit will now remove unused rooms on the night before the arrival date.
- **SRF208 Travel Booking Audit** when search criteria /cids was set to Empty = All Camps, the report did not generate. [#37508]
- With the mobile validator code, that was not allowing a user to register in the Workforce Kiosk Mobile. [#36731]
- In SAM, where the profile field "nationality" was not saving. [#35085]
- In Folio, where a conflict error was not displayed when a room change was made in SAM after the folio request has been submitted. [#34292]
